

TUESDAY STANLEY, ED.D.

President, Westmoreland County Community College

Tuesday Stanley, Ed. D. was appointed the seventh president of Westmoreland County Community College by the college's board of trustees April 23, 2014. During her tenure as the college's first female president, Westmoreland has been awarded a Title III, \$2.5 million grant to strengthen online educational services and student services to ensure a full spectrum of services to all of the communities the college serves, Westmoreland, Indiana and Fayette counties in Pennsylvania.

In addition, the college enacted a new three-year strategic plan which called for upgrading technology across the college locations, investing in employees through professional development and using data to drive decisions. This plan concluded successfully with 89% of the initiatives progressing to plan or fully complete. The college then launched a new strategic plan in 2020 and continued with the Balanced Scorecard approach. The plan focuses on 4 main perspectives: Customer, Internal Business Process, Employee Learning and Growth, and Financial.

Stanley led Westmoreland's Investing in Our Ambitious Journey campaign which was the leading driver of corporate, private foundation and individual support for the construction and renovation projects that have transformed the Youngwood campus. In raising \$6.5 million, the results of the Ambitious Journey campaign exceeded the goal of \$5 million. This capital campaign was also record breaking in the number of major gifts resulting in naming opportunities. In total, nine areas of the Youngwood campus were named after major donors, committing over \$800,000.

The college cut the ribbon on an addition to the Science Innovation Center on the college's Youngwood campus in 2018. This new addition created student space for studying and interacting with faculty and each other, integrated learning in lectures and labs and infused technology in the pedagogy.

The college went on to cut the ribbon on Phase I of renovations to the Student Achievement Center, formerly known as Founders Hall, on the Youngwood campus in the Fall of 2019. The next phase included the creation of the enrollment center for one-stop student services, reimaged the library into a high-tech space, co-located the faculty with each other and students and designed student areas for studying and interacting with each other. In the fall of 2020, the final phase of the renovations was completed, and the ribbon was cut on the event center, board room, Career Connections Center, and the Tutoring and Learning Services area.

She serves on the board of directors of the Economic Growth Connection, Westmoreland-Fayette Workforce Investment Board, Challenger Learning Center, Westmoreland Museum of American Art and the advisory board for HERDI, Higher Education Research & Development Institute. She is chair of the Westmoreland County Forum for Workforce Development, and a member of the Westmoreland Cultural Trust Board of Directors.
