

ERP Transition Support Services

Simplifying Enterprise Transformation for Higher Education

Your institution's enterprise systems should simplify work, empower decision-making, and enhance the student and employee experience. However, many of these tools can often feel overwhelming or underwhelming — either underused, outdated, or misaligned with your institution's goals.

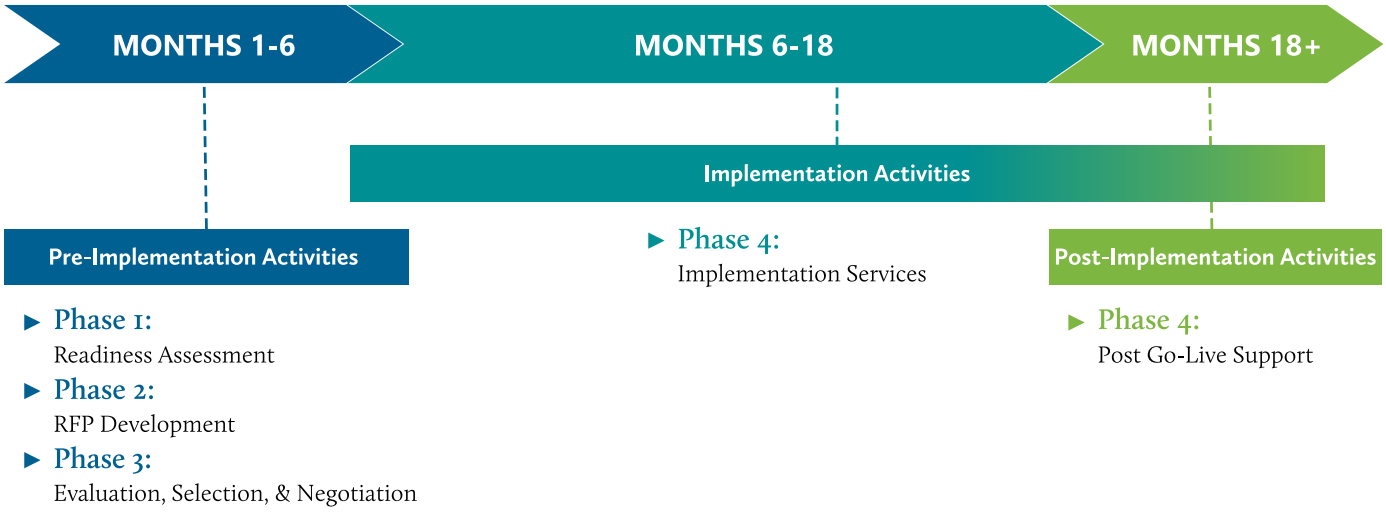

According to EDUCAUSE, half of all institutions report that their ERP implementations didn't meet their expectations. This challenge is all too common: while digital transformation is crucial, navigating its complexities can be both challenging and costly. At CampusWorks, we are transforming this narrative.

Our vendor-agnostic approach allows us to work with you across a wide range of leading systems, including every major ERP, SIS, LMS, and CRM vendor — such as **Ellucian, Workday, Jenzabar, Oracle, Salesforce, Slate, and Element451** — ensuring that our solutions are tailored precisely to your needs.

ERP Transition Services

- **IT Capacity Assessment:** Evaluate IT's readiness and capacity to support enterprise system transformation.
- **Process Reimagine & Redesign:** Optimize processes to enhance the student and employee experience.
- **Data Prep:** Cleanse data and establish governance for a smooth migration.
- **Integration & Reporting Inventory:** Map essential integrations and reporting needs for seamless data flow.
- **Project Management:** Goal-aligned, expert planning and oversight to keep your project on time and budget.
- **Transition Management:** Prepare your campus for change by boosting engagement and reducing resistance.
- **Staff On-Demand:** Get functional and technical help when you need it.
- **Testing and User Training Support:** Ensure the solution works as designed.
- **Post Go-Live Support:** Ongoing project oversight for quality assurance.

ERP Transition Service Phases and Timeline

Success Starts with Strategy

The CampusWorks team brings deep experience in optimizing existing technologies and implementing process improvements that lead to real budget savings. We focus on streamlining your enterprise system implementations to reduce risk and position you for long-term success. We're here to help you discover what's possible with end-to-end support to simplify your enterprise system journey — from readiness to implementation.

#1 READINESS ASSESSMENT

We assess your institution's preparedness, uncover gaps, and build a clear roadmap for implementation success. Our collaborative process includes focus groups, current-state analysis, and future-planning workshops, culminating in a modernization strategy and readiness insights to guide your next steps.

#2 RFP DEVELOPMENT

We craft a custom, scenario-driven RFP aligned with your goals and future needs. Our team manages the full process — drafting, refining, and preparing for vendor selection — to help you identify the right solution and reduce costly customizations later.

#3 EVALUATION, SELECTION, & NEGOTIATION

We guide you through vendor evaluation, selection, and contract negotiation, leveraging our vendor-neutral expertise to save you time and money. Expect objective advice, inclusive processes, and significant cost savings.

#4 IMPLEMENTATION SERVICES

Our pre- and post-implementation services guarantee a seamless transition at every stage. We offer continuous support through training, testing, and project oversight to ensure quality and future success.
